Friday: Sight word test

Note about reading homework. Newest research is showing that students who are required to read a certain amount for homework, tend to **only** read for that amount of time. We want our first graders to love reading, so - we are no longer putting a time restraint on first grade reading homework. Please encourage your first grader to find a cozy space to read with a good book, and allow them to get "lost" in their reading! Feel free to contact us with questions or comments.

Parents - please help students fill out reading log out back daily.
